Dear Sir/Madam,

26/06/2015

I am writing in reference to West Midlands Electrical Installations Ltd. I Craig Hall have been using the services of the company for nine years at Albert Bradbeer Primary School and their services were being used at Victoria Special School where I was employed from 2004-2006.

We as a school buy the services of West Midlands Electrical Installations Ltd for all break-downs on our school site and they also take care of almost all statutory and compliance testing. I am pleased to confirm that we are always satisfied with all works undertaken as well as fantastic costings and I would recommend their services to all schools and businesses and would be very pleased to show completed works to any company considering using West Midlands Electrical Installations Ltd.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Craig Hall', is written over a light blue horizontal line.

Craig Hall (Site Manager)
